CASE RESULTS

More Than \$1 Million for Biker Hit by Drunk Driver

On the evening of May 1, 2013, our client was riding his Harley-Davidson in Madison, Wis., when a drunk driver struck his motorcycle head-on.

Our client sustained serious leg injuries that required several surgeries. Although his injuries were significant, he has been able to make a good recovery due to his hard work and the excellent care from his surgeons. Through extensive negotiations, Attorney Chad A. Kreblin obtained a settlement for the client in excess of \$1 million.

\$120,000 After Initial Offer of \$15,000

It was a dry, clear day on June 24, 2010, when our client was driving in Fond du Lac, Wis., and attempted to make a right turn. When she stopped at the intersection, a negligent driver rear-ended her.

After the accident, the insurance company claimed the impact was too light to cause any injury. In reality, our client sustained a neck injury that required surgery. The insurance company's pre-suit offer was \$15,000, but Attorney Todd R. Korb obtained \$120,000 at mediation.

YOU SHOULD KNOW

BE SAFE: Holiday Season Means Increase in Long-Distance Travel

For many people, the holiday season is synonymous with family get-togethers. If you're not vigorously cleaning the house and preparing mass quantities of food, chances are you're probably traveling.

During the six-day Thanksgiving travel period, long-distance traveling (50 miles or more) increases by 54 percent. Between Christmas and New Year's, it rises 23 percent relative to the rest of the year.

Out of the 93 million people that take year-end trips, 90 percent drive.

Winter Driving Tips

With all this in mind, it's important to be extra careful on the roads. For your safety, please review these important winter driving tips:

- **Winterize Your Vehicle** – All the maintenance you put off during the summer and fall should be taken care of before winter hits. This could mean new tires, new wiper blades or a brake job.
- **Be Prepared** – Keep gloves, hats, boots, blankets, an ice scraper and a shovel in your car at all times.
- **Keep Your Distance** – Tailgating isn't safe in ideal conditions, and it's especially important to give other drivers extra space during the winter months.
- **Brake Slowly** – The easiest way to fishtail and lose control on a slippery road is to brake suddenly.
