## CASE RESULTS

### \$1,250,000 for Illinois Bicyclist within 30 Days

On a clear summer morning, an Illinois resident was riding his bicycle when tragedy struck. An inattentive driver ran into him as he passed a parking lot. Unaware he had stuck someone, the motorist kept driving. The driver was eventually flagged down by witnesses after traveling some distance down the street.

The bicyclist was left with severe injuries and scarring from the incident. Hupy and Abraham, S.C. demanded the \$1,250,000 policy limits be tendered within 30 days, and the insurance company paid.

### \$1,200,000 for Minnesota Truck Driver

On a foggy November day, our client was driving a semi for his employer on a Minnesota highway. As he drove through an intersection with the right of way, an intersecting semi driver ignored his stop sign. Despite the foggy conditions, he chose to "go for it" and hope for the best.

The resulting impact between the two trucks was cataclysmic. Our client's shoulder and facial injuries required multiple surgeries and extended medical treatment. Hupy and Abraham, S.C. settled the case at mediation for \$1,200,000.

## YOU SHOULD KNOW

### Seven Signs of Nursing Home Abuse and Neglect

Nursing homes serve an important purpose by caring for those who can no longer care for themselves. While many assisted living facilities do an admirable job, the ones that don't put their residents, and potentially your loved one, at risk.

If you suspect your loved one is being abused or is a victim of substandard care, it should be investigated. Here are seven signs of nursing home abuse and neglect:

- Falls
- Avoidable bedsores
- Dehydration or malnourishment
- Failure to prescribe proper medication
- Failure to notify a physician or family member of a change in condition
- Failure to properly cater to resident's needs
- Failure to monitor the resident

Remember, abuse and neglect aren't confined to the nursing home. In-home caretakers are also responsible for the well-being of those they serve. Abuse and neglect can also occur in any type of assisted living facility.
